### Homeolab USA Develops Homeopathic Allergy Medicine for Children, Kids 0-9™ Allergy

Buffalo, New York, June 19, 2009 — Homeolab USA has added a new formula to their line of children's remedies. Kids 0-9™ Allergy is a unique combination of 9 homeopathic ingredients specifically targeted to ease allergy symptoms in children. The formula helps relieve nasal congestion and sneezing, alleviates itchy eyes, ears, throat and skin and stops tearing eyes.

Rather than suppressing or stimulating symptoms, homeopathic medicines work with the body to allow it to rebalance itself. The high dilutions of active ingredients used in Kids 0-9™ Allergy, make it completely safe and non-toxic for children of all ages without risk of drug interaction or overdose. This easy-to-administer liquid formula is great tasting without the addition of sugars, dyes or alcohol. Manufactured according to the Homeopathic Pharmacopoeia of the United States (HPUS), Kids 0-9™ Allergy provides fast acting and effective relief.

Kids 0-9™ is a complete line of homeopathic children's remedies. In addition to Allergy, the product line includes formulas for Calm, Colic, Cough & Cold, Earache, Flu Relief, and Teething. For more information on our product line, visit our website at [www.kids0-9.com](http://www.kids0-9.com).

Homeolab USA is the US division of Homeocan®, Canada's leading manufacturer of homeopathic remedies. They offer a complete line of more than 200 prime quality natural products in the homeopathy, phytotherapy, aromatherapy and trace mineral categories.
